**BloodSTOP and BloodSTOP iX Hemostatic Matrix, control bleeding fast, promote healing**

The worldwide coronavirus pandemic has challenged our health care system and caused an urgent shortage of PPE, medical equipment and blood supplies! BloodSTOP iX Advanced Surgical Hemostatic Matrix Trauma Injury Wound Care can help reduce the stress on hospital resources by providing the best bleeding control solution, reducing blood loss, shortening operation time and promoting healing. Additionally, because consumers are discouraged from making non-critical medical visits during the coronavirus pandemic, we are giving away a free bonus box of Walgreens Hemostatic Gauze (\$10.99 value) with a purchase of masks! BloodSTOP helps consumers by giving them a way to treat wounds safely at home. This offer will continue as long as we have inventory. Please visit our website for more info. <http://www.lifescienceplus.com/products/>. Please email: [sales@lifescienceplus.com](mailto:sales@lifescienceplus.com) or call 650-565-8172 for order
